Application Questions:

Who Did Jesus Come to Help?

Mark 7:24-37

1. Who does Jesus help?

2. What does he do for them?

3. How do they get his help?

1. Some of us struggle to want what God offers because we think too highly of ourselves and so we're not desperate for him or his help. Others of us struggle to embrace his offer because we think too little of him and can't believe he could really love us. Which side of the continuum do you wrestle with more often?
2. Can you think of other times in scripture where Jesus "tuned"—changed, adapted—his approach to meet the person where they were at that he was trying help? How come he does that? How has he done that to meet you?
3. When was the last time you were moved by how much Jesus has done to identify with you, so that you could have a place in his family? What are some of the things that have touched you most as you've meditated on them?
